

eXample Consulting Group's

SIX SIGMA GREEN BELT TRAINING AND CERTIFICATION at CHENNAI, India (Jan 2010)

HIGHLIGHTS

eXample Consulting Group has successfully concluded the SIX SIGMA GREEN BELT training and certification public program at CHENNAI held on JANUARY 8, 9 and 10 - 2010 (Fri to Sun). The program was well attended by experienced professionals from leading companies like [Infosys](#), [HCL Comnet](#), [HDFC Bank](#), [Schneider Electric](#), [TCS](#), [Galfar Engineering](#), [Clearsteps](#), [Innoweb Technologies](#), [ACT](#), [Future Polymers](#) among others.

The program helped participants to closely relate SIX SIGMA to their work roles, identify potential projects, shortlist top projects, define the project charter, SIPOC, data collection plan, perform data analysis, identify potential causes and shortlist key causes, validate causes through cause-effect model building (scatter/correlation / regression), identify key solutions, assess potential risks in implementation (FMEA) and finally selecting the best control measures to sustain the gains.

Engaging discussions, illustrations, role play, games, exercises, memory jogger, humorous anecdotes and Q&A were utilized to impart deep and rich learning, along with mock practice question papers to build full preparedness that ensured thoroughly enjoyable learning.

The summary of participant feedback is presented below:

Excellent presentation and coverage!! Topic coverage was good!! Presentation was excellent!! Examples were good!! I found this program to be **VERY GOOD** in comparison to other management programs I have attended elsewhere. This course has shaped my thinking. I now have a good understanding of the Six Sigma framework and where to look

for weak spots in a process or system. Got great value and definitely recommend. It is greatly applicable in my work and definitely help in my career growth!!
(Rating: 8 / 10) - Director (A mid sized Software services firm (UK/India))

I found this program very elaborate and well conducted. I got good understanding of Six Sigma framework. This program has helped me think in a "qualitative" manner. Definitely recommend and it is 100% applicable in my work. This program will definitely help in my career growth!!
(Rating: 8 / 10) - Operations Manager (India's #1 IT and BPO Services firm)

A beautiful experience!! It was great to learn the concept of Six Sigma from nowhere to a level of expertise!! This is the first Six Sigma I attended and it was an excellent

workshop!! This program has shaped my thinking to a large extent. I have started applying Six Sigma in day to day life!! I will definitely recommend colleagues and it is applicable 100% in my work environment. This program will sure help in my career growth!! (Rating 8 / 10) - Software Engineer (India's #2 IT Services firm)

The program was quite fine!! The training is good with discussions and interactions!! It helped me to understand Six Sigma and statistical application in more detail and their areas of applicability. Will definitely plan to attend eXampleCG's Black Belt program!! Definitely recommend and it is 100% applicable in my work environment!! (Rating: 9 / 10) - Consultant (A mid sized IT consulting firm)

Worthy wonderful experience!! My aim of diversifying my career to new field will be fruitful as I have undergone this course. I am very glad about the facilities response and eXampleCG's trainer who has given such a good value addition to my career!! In comparison to programs I have attend elsewhere, eXampleCG's training is excellent and the trainer's clarity and teaching methodology is excellent!! This course has changed my thinking!! I have now started thinking more about the diverse fields that I can touch upon as a Six Sigma trained professional. The program greatly met my expectations and I definitely recommend!! My career can now be extended to other fields than construction and infrastructure industry (Rating: 8 / 10) - QC Inspector (Civil) (A leading Infrastructure and Construction company in Middle East)

Just perfect and practical!!! I can apply the Six Sigma BoK in my domain immediately!! This program has shaped my thinking and made me focus on consistency and process orientation!! I got 100% value for the fees paid and it is very much applicable in my work! Definitely recommend this program!! (Rating: 9 / 10) - Head of Customer Support (A leading Automotive Dealership chain)

I found this program very structured the software tools provided excellent and very interesting sessions!! This program has shaped my thinking and I have now understood that variation will be there in everything but it can be minimized to achieve excellence!! Definitely recommend and this program will definitely help in my career growth!! (Rating: 9 / 10) - Senior Manager (India's Top 3 private Bank)

I found this program to be productive training approach. Most training sessions are not productive because interactions are less, time for relating to job environment is not given and illustrations are less. But this training program gave all the above opportunities!! I will rate it as one of the best program I have ever attended!! It has changed my thinking of looking beyond my work place for improvements and breakthroughs!! I got 100% value and sure will recommend colleagues and friends!! It is

very much useful for my career growth!! (Rating: 9 / 10) - Senior Production Engineer (A leading Plastic Manufacturing company)

The program was really good!! We had lot of exercises which gave good idea of the methodology. The brainstorming sessions helped to get more idea about how we look at Six Sigma. Compared to other programs I have attended, I found this par excellence where the instructor made us continuously participate instead of just running thru the slides. This program has really shaped my thinking!! It has proved many things I was thinking earlier as wrong and I will implement the new learning in my office!! I shall definitely recommend this program to colleagues and this program will highly help in my career growth!! (Rating: 9 / 10) - Senior Analyst - IT Helpdesk (A leading and Top 3 Enterprise Network Services provider)

"Thank you" This program helped me to know about Six Sigma and many good things to achieve in my career!! This was my first program on Six Sigma and I found this program to be very effective and dynamic!! The content was good and trainer was EXCELLENT!! This program has DEFINITELY changed my thinking!! This program was an EYE-OPENER. It changed my whole outlook and perspective towards my responsibilities in the corporate world!! The program fully met my expectations. I got 100% value and will DEFINITELY recommend colleagues. It is 100% applicable in my work and definitely help in my career growth!! (Rating: 9 / 10) - Sales Engineer (A top MNC Electrical Engineering capital goods manufacturer)

All the program participants were awarded **SIX SIGMA GREEN BELT** participation certificate by eXample Consulting Group. The Six Sigma Green Belt Assessment Test was conducted on the last day of the program based on the results of which the participants have been awarded the "Six Sigma Green Belt Course Completion" certificate.
